Art Unit: 2164

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 74-83 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The following quoted statements are not recited in the original disclosure.

Claim 74: “prioritize said patient’s major complaints”, “major complaints are ranked by relevance”, “interview configuration profile”, and “configuration profile”.

Claim 75: “index symptom”, “index symptoms”, “redundant characterization of detail is skipped”, “risk of frustrating”.
